

I am writing in behalf of all those people, including myself, that have be comforted through K-LOVE. As a resident of Modesto, I am able to turn on this radio station and relax in knowing that I am not alone. If K-LOVE were to be displaced our local community would not have the ability to be encouraged and be an encouragement to others who may need some through this music. The service in which this radio station provides is vital. People who have been literally on the verge of killing themselves have been able to turn on K-LOVE and were ditered away from that act. Not only does this station save many people's lives everyday through its music, it also provides for other people through the help of its listeners. Please do not take away our K-LOVE.

Thank you,
Bradi Maguin
